### **State Needs and Strategies addressed during service:**

Needs::

Maria needs to know that she is leaving a good legacy for her family.

Strategies:

Maria and Felecia will meet once weekly on Wednesday –3:30 pm- 5:30 pm. to help with communication with Rin. New Techniques to connect with Rin. Referrals and community resources will be provided.

Description of activities completed::

Provider spent time in the home getting to know Maria and observing her interactions with the children. Provider supported Maria in connecting with community resources that would be helpful to her family. Provider engaged Maria in activities to promote open positive communication between Rin and herself. This provider supported Maria in learning how to support Rin in using coping skills when needed, this included role play activities.

Client's response to strategies:

Maria welcomed this provider in to her home. Maria shared her needs, concerns and history. Maria worked with this provider to connect with community resources. Maria actively participated in activities to promote positive communication. Maria posted the list of coping skills in her home. Maria engaged in role play activities to practice supporting Rin through coping skills.

**New Strengths or Concerns realized this past month for both the family and the youth**

Strengths: :

Maria is a strong advocate and good communicator.

Concerns: :

No concerns noted during this service period.
